Mr. Henry was proprietor of a barber shop in Daly City for twenty-two years. Three years ago when his eyesight started to fail he sold his business and retired.

He is survived by his wife Lillie Henry.

He was a member of Crocker Lodge No. 454, F. & A. M. Although he belonged to no other organizations he took an active part and was very interested in civic affairs of the city.

Crocker Lodge will conduct the funeral service on Saturday, March 24 at 2 p. m. in the W. C. Lasswell and company mortuary chapel, 6154 Mission street.

Political Pot Boils In San Mateo

City Attorney Ernest Wilson and Councilman Carrol M. Speers were named as defendants in a taxpayers' suit filed Tuesday of this week at Redwood City. The complaint was filed by Attorney Melvin Belli on behalf of Charles Petersen, San Mateo taxpayer and former city auditor, and demanded the removal from office of the two defendants, on grounds they were personally interested in contracts with the city, and that such double interest was a violation of the city charter.

The complaint alleged Speers was part owner of a building supply company that sold paint and materials to the city on January 12, 18 and 25 at a time when he was a member of the city planning commission. It also charged that Speers was appointed to the council February 5, and voted for the contract whom which he assertedly benefited.

Wilson was charged with being interested in the law firm which engaged in negotiations with the city over title to property in a real estate development needed for street improvements.

Superior Judge Maxwell McNutt of San Mateo county had earlier signed an alternative writ of mandate returnable before Superior Judge Andrew J. Schottkey at Redwood City, Monday.

Red Cross Drive Is Away Behind In Collection Totals

Reports on the local Red Cross drive in Daly City and Colma were anything but good this week. With a quota of \$6,880 for Daly City, the total amount collected to date is \$1,778. This leaves \$5,100 to go.

Collectors for the house-to-house canvass report donations are very slow with only \$500 collected. Chairman Mrs. Catherine Foreman, for the house-to-house canvass, states that she will be at the Red Cross workroom, Daly City Theatre hall, from 10 a. m. to 12 noon every Wednesday until the end of the drive, to take collections from the various solicitors and anyone else who wishes to give their contributions to her.

Colma incorporated reports a total of \$400 collected to date.

Reckless driving cost Raymond Clifford \$25. John McCarthy, 108 San Diego avenue and Mr. Elliott, 351 Templeton avenue each paid \$1 for overnight parking.

Busy Week For Ambulance Crew

On several occasions last week the county ambulance was called upon for assistance.

On Saturday morning, March 17, Jack Johnston, South San Francisco, was taken to the Community hospital where he was placed in an isolation ward because of a bad case of diphtheria.

Also on the same day a call was made to 535 San Diego avenue, Daly City, at the request of Dr. Budaeff to pick up Reverend William Hayes and take him to the Community hospital. X-rays revealed torn ligaments in the leg. He was given treatment and returned home.

There was one false alarm, however, when the ambulance was requested by San Bruno, but the injured had already been moved by a U. S. Army ambulance.

Released by U. S. War Department, Bureau of Public Relations.

These Fish Dishes Save Red Points

By BETTY BARCLAY

Do you think of "F" as standing for fish and Friday—with perhaps some extra fish dishes during the Lenten season? Well, nowadays fish can mean much more than that. It spares precious red points and may come to the table several times a week, if you can find ways to make this finny friend popular with your family.

Chefs Use Lemon with Fish. Here's a place where you can call on that master of food—the chef. His secret for glamorizing fish is simple. Use lemon—lemon juice in the cooking—lemon quarters for garnish (they give color to this somewhat colorless food, as well as flavor)—lemon juice in the sauce or dressing.

Try This Easy Way to Cook Fish. An example is this quick and easy method of broiling fish, equally good for Dad's catch of trout or the fish you brought home from market.

Have fish in slices or other pieces the right size and thickness for frying. Sprinkle fish pieces generously with lemon juice. Flour one side only. Cover bottom of broiler pan or shallow baking dish with oil or melted fat. Dip floured side of fish in the hot oil. Turn at once. Season with salt, pepper and paprika. Broil floured side up, without further turning, until cooked through and browned—about 12 minutes.

Serve fish on a hot dish with sprigs of parsley and quarters of unpeeled lemon. Note that this method keeps the odor of cooking fish at a minimum.

Use Up Fish "Left Overs." "Left overs" of cooked fish can be used in place of canned salmon and tuna, for a variety of dishes your family will like—fish chowder, creamed

fish, fish salad, fish cocktail, and others.

Creamed Fish. Add flaked, cooked fish to a medium white sauce. Serve on toast points or shortcake style on hot, split, buttered biscuits. Before adding fish to sauce, sprinkle with a little lemon juice—just enough to bring out the full flavor of the fish but not enough to make it sour. Hard cooked eggs can be added to fish to make it go farther, in this dish. An uncooked egg may also be stirred into the hot sauce.

Fish Salad. Sprinkle flaked, cooked, left over fish with lemon juice. Combine with chopped celery or cabbage and mayonnaise to taste. Chopped, hard cooked eggs may be added to make the fish go farther.

Fish Cocktail
1 cup cooked, flaked fish or other seafood, such as shrimps, etc.
½ cup finely cut celery
¼ cup tomato catsup
1 teaspoon Worcestershire sauce
¼ cup lemon juice
1 cup finely cut onion or chives
Combine and chill thoroughly. Serve in cocktail glasses, accompanying each service with a lemon quarter. Serves 4 to 5.

Poached Fish. Rather than boil fish, poach it—that is, keep it in hot water just under the boiling temperature until cooked. Season water in which fish is cooked with lemon juice and salt (1 tablespoon lemon juice and ½ teaspoon salt to 1 quart of water). The lemon juice also helps to keep flesh of fish white.

Lemon Tartar Sauce for Fish. Chefs serve tartar sauce with fish. To make this, add a little chopped onion or onion juice, chopped sweet pickle and lemon juice to taste, to mayonnaise.

"OFF THE BLOTTER" ...

Accidents and break-ins were the usual calls for the police department last week. Edwin D. Witter, Sacramento and Hugo Paoli, 273 Moltke street, were involved in an auto accident on Junipero Serra boulevard. Officers R. Petrocchi, A. Benassini, and E. Beecher responded. Luckily no injury occurred and there was only slight property damage.

While on patrol Thursday evening, March 15, Officers Benassini and Beecher discovered the rear door of the Colma 5 & 10 store, 7380 Mission street, open and lights burning. Investigation proved that everything was in order. Officer Hopman later checked with clerks and found nothing had been disturbed.

A call to Veteran's Inn on Monday, March 19, proved that someone had tried to enter through the rear window, without success. The glass was broken and the sash board pried off.

Thomas J. Johnston, 11 1-2 Theta avenue, reported that his car had been broken into and the glove compartment ransacked. An attempt was also made to pry a clock off the dashboard.

Crocker P. T. A.

Present Life Membership

The regular meeting of the Crocker P. T. A. was held Tuesday, March 13 at the Crocker school, with Mrs. Margaret Holzworth, president, presiding.

After the general business was taken care of a motion was made to present a second life membership. However, it has not been decided to whom the membership will be given.

The annual committee reports were given.

The nominating committee was appointed and included the following: Mrs. E. Hobbs, chairman; Mrs. Mildred Seiler, Mrs. Olga Bordson, Mrs. Vivian Pahlka and Mrs. Alice Tyllinda. They will give their report at the next meeting.

Frederick Petersen Passes Away

Frederick P. Petersen, 23 Woodrow street passed away March 17.

He was the husband of Julia V. Petersen, father of Janet V. Petersen, brother of William F. Petersen and Mrs. Mary K. Dempsey.

Funeral services were conducted at 1 p. m. Tuesday, March 20 from the chapel of, H. F. Suhr company, 2919 Mission street. Interment followed at Woodlawn Memorial park.

URBANE

REIGNING dress-up fabric of frosty days is economical and luxurious-feeling velvet. Ermine tails give special significance to the rich and flattering black suit designed for CBS singer Jessica ("Saturday Night Serenade") Dragonette for luncheons and afternoon concert wear. Perennial symbol of elegance, velvet requires practically no care; simply brush and hang over a bath tub of steaming water and the rich pile rises to its original beauty.

Nearly seven times as many men and women are now on active Coast Guard duty as there were at the outbreak of war. This does not include members of the Temporary Reserve.

Entertainment For Theatre Patrons

There is so much to say about "Hollywood Canteen," the great picture coming to the Daly City theatre, that one doesn't know where to start. Every great Warner Brothers star is in it plus a lot of lesser lights. "Hollywood Canteen" is a moving, amusing story of two war veterans, Bob Hutton, and Dane Clark. The Andrews Sisters, Jack Benny, Joe E. Brown, Eddie Cantor, Jack Carson, Roy Rogers and Trigger are but a few of the many stars. Also featured are great musical organizations like Jimmy Dorsey and his band, Carmen Cavallero and orchestra, Golden Gate quartet and Bob Nolan and the Sons of the Pioneers. Featured also is "Dark Shadows," an unusual story combining the current screen interest in psychiatry with the material of MGM's "Crime Does Not Pay" series.

"Dark Waters" one of the finest serials ever to appear in the Saturday Evening Post comes to the screen Sunday, March 25, with a strong cast in Merle Oberon, Franchot Tone, and Thomas Mitchell. It is a story of murder on the bayou, the locale being in the Louisiana swampland. To offset the somber tone of "Dark Waters" is a co-feature "Three Is A Family," a rousing farce.

Wednesday brings the Dead End Kids in "The Clancy Street Boys," one of the most riotous of all their comedies. Basis for much of the fun is Huntz Hall's impersonation of an "oomph" girl. Leo Gorcey and Bobby Jordan have other top roles.

"Murder in the Blue Room," a mystery with music and plenty of laughs, is the other feature for Wednesday, making the show about perfect.

Seals Win - Lose In Practice Games

Breaking even in two practice games over the past week end, the San Francisco Seals will take on two more service nines in contests at Seals stadium this week end.

Saturday afternoon, the O'Doulmen will cross bats with McClellan Field Flyers, who dropped a 6 to 5 eleven inning decision to Oakland Acorns last Sunday. Sunday, the Seals will entertain the Surf Riders. Both games get under way at 2:15.

Rained out of games with Camp Parks and the Portland PCL nine, the Seals dropped a 7 to 5 decision to Joe Gordon's Hamilton Field Players at the stadium Saturday. It was a seesaw game with the Flyers compounding a four run rally in the top half of the ninth, mainly as a result of wildness on the part of Doug Oliver, rookie Seal hurler.

Sunday, the Seals took a two run first inning lead over the Coast Guard Sea Lions, added to it here and there with enough tallies to take a 6 to 5 decision, despite a Sea Lion four-run spurge in the eighth.

Manager O'Doul started what is expected to be the Seals' opening Coast League lineup in this game, with Ken Brondell pitching and Joe Sprinz behind the plate. Gus Suhr at first, Roy Nicely at second, Joe Futernick at short and Johnny Cavalli at third comprised the infield, with Neil Sheridan, Ben Guintini and Bill Enos in the outfield, left to right.

This group showed considerable pinch-hitting power and proved strong defensively, so that it may go far if and when Prexy Graham and Skipper O'Doul succeed in lining up two or three more pitchers who can win in PCL company.

Tickets for the Seals' opening game with Portland Tuesday night, April 10, are now on sale at the stadium.

Manicured Shell Makers

To make the detonator of a shell, bomb or other explosive projectile, a portion of the explosive material in the center is exposed and protected only by a thin, flexible tin-foil three one-thousandths of an inch in thickness. At this particular spot the detonator is so sensitive that it can be set off with a pointed fingernail. For this reason all employees who handle detonators must have their fingernails rounded by company nurses who regularly inspect fingernails.

China Stains

Don't let vinegar, lemon juice or salt stand long on your pretty china. The design may suffer. If cups aren't rinsed soon after using, the stains will be hard to budge. If a cup has been stained, wipe with a damp cloth sprinkled with baking soda. Three tablespoons of baking soda to a quart of warm water will soak loose any scorched or stubborn foods on earthenware or on your heat resistant glass.

Cold Fingers

Strong emotions like anger are found to make the fingers cold, Drs. Bela Mittlemann and H. G. Wolff of New York hospital and the Cornell university medical school reported to the recent temperature symposium. Temperature differences of more than 12 degrees Centigrade (21.6 degrees Fahrenheit) were noted.

No Need to be Blue About Blue Points

Serve Winter-Fresh Fruits—Oranges, Lemons, Apples, Pears

The pictured salad of sliced oranges on a bed of water-cress or other greens, is a popular family number.

Omit greens, and this sliced orange becomes an enticing dessert. The home-maker can plan for orange dishes, knowing this fruit will always be in market.

Baked fruits are other good winter desserts.

By BETTY BARCLAY

Blue points! Once this term brought you visions of oysters. Now it means rationed cans of fruits and vegetables on the grocer's shelves. Your family likes fruits and you wish to serve them this healthful food.

Perhaps you have depended upon canned fruits for your winter menus. The now's the time to become more fully acquainted with winter's unrationed, fresh fruits — golden-skinned, juicy oranges; rosy apples; yellow and brown pears; avocados; bananas; and the all-purpose, flavorful lemon.

Oranges and Lemons Give Freshness

Oranges and lemons are especially important in winter menus. That breakfast glass of orange juice does more than taste good and stimulate appetite. It gives you your daily quota of vitamin C, when other sources of this important food element are out of season. The body does not store vitamin C. It should be furnished by some food, eaten daily.

The habit many people follow in drinking a glass of lemon juice and water on arising each morning is also a most healthful way to include fruit in the diet.

Oranges and lemons can be combined with other winter fresh fruits in many delicious fruit cups, salads and desserts. These also combine well with canned fruits. They make the latter go farther and give them a pleasing flavor "freshness."

Sewage Facilities

Additional sewerage or sewage treatment is needed at 13,915 of the 16,752 communities of all sizes in the United States, according to results of the national inventory of needs for sanitation facilities prepared by the sanitary engineers division of the U. S. public health service. Estimated total cost of the entire program, which includes new sewer systems, sewage treatment plants, and sewer extensions, amounts to \$2,255,150,000.

Clean Crust

If you will rub, or pinch free from soot, the crust of your kerosene stove wicks, they will give much better service. This should be done every week.

Don't Forget Dried Fruits

Prunes, raisins, figs, dates, apricots, peaches, pears and apples, also supplement blue point foods. A few slices of lemon or orange or a little of the juice and peel, added to dried fruits in cooking, enhance flavor and here again, add "freshness."

The high natural sugar content of fruits, fresh and dried, makes it possible to spare rationed sugar by their use — another reason for using fruits generously at this time.

Baked Fruits with Lemon

A baked fruit, served hot or cold, is an excellent winter meal dessert, that may be cooked along with the other oven foods of the meal. The use of lemon makes these deliciously different.

To bake apples or pears, place in shallow baking dish — 4 apples of a good baking variety or 6 medium size winter pears, not fully ripe. Over fruit pour ¼ cup sugar, dissolved in ¼ cup lemon juice, and ¼ cup water. Add a lemon slice for each fruit.

Bake in moderate oven (350° F.) until fruit is tender.

Baked Prunes: Cover 2 cups of dried prunes with water. Bring to a boil and cook on top of stove for about 5 minutes. Put in a baking dish and place in oven. Cook until tender but not overdone. Add water if necessary but not too much. The prunes should develop their natural flavor and have a natural syrup. Take prunes from oven, add 3 tablespoons lemon juice and ¼ cup sugar, stirring sugar to dissolve in hot juice. Add thin lemon slices for garnish and more flavor.

SAILORS' HEAD EASTER PARADE

IRRESISTIBLY FEMININE INTERPRETATION of 1945's sailor mood is the black milan Covell Original modeled by CBS singing star Jane ("American Melody Hour") Pickens. Reminiscent of the romantic skimmer of previous years, a face-framing black veil falls from the full-blown rose trim to slide through an adjustable velvet chin bow and flutter in long streamers.

Coast Guardsmen in battle zones are still fulfilling their dual peacetime role of lifesavers and fighters.

Coast Guard fliers have searched more than 90,000,000 (M) square miles of sea on anti-submarine patrol since December 7, 1941.

News From Jeff District Schools

AT CROCKER

Last week the students of Room 2 were shown a film called "Acorns to Bread." The class got some idea of the primitive ways used by the Indians long ago in preparing and cooking their bread.

During the recent paper drive the boys and girls of Room 3 responded 100 per cent. Each student collected a pile of paper three feet high.

The pupils from Room 4 enjoyed an educational film, "Urban Life in Turkey," on Thursday.

A film, "Lest We Forget," was shown the students of Room 6. This picture depicted the terrible destruction by fire and flood caused through carelessness.

AT JEFFERSON

The seventh grade has a new set of pictures for its bulletin board illustrating the "Protection and Conservation of Animal Life." The class is continuing its study of the unit "Conservation of Natural Resources" and our own California redwoods are being considered from many viewpoints. Their teacher has some splendid photographs showing the redwood lumber industry in all its phases.

The sixth grade had an interesting and timely lesson this Thursday in "Story Writing." The technique of developing the beginning, middle and end of a story was practically demonstrated by having the children write a class story. The subject for this story was selected from several titles presented by the pupils. "Susanah's Toy Fox Terrier" was the title selected and a very interesting story was developed around it.

"Should the Coal Miners' Union Receive a 10c Royalty on Every Ton of Coal Mined?" This was the topic chosen from this week's current events for debate by eighth graders.

Those on the affirmative side were Paul Willbanks, Joseph Rose, John Olcese, Doris Varni.

Those on the negative side were Neblett Rhodes, Joseph Arrighi, David Belli, Ada Johnson.

Both sides presented their arguments exceedingly well. According to the majority vote of the class the negative side won the debate.

AT WOODROW

Conservation week in California was observed by the pupils of Room 4 by the making of posters of the state emblems along with booklets containing material on Luther Burbank, Arbor Day, and the purposes and need of conservation of natural resources in California.

The children in Room 8 are studying "Colonial Life in America." They are making maps showing where the first colonists landed.

The sixth grade is learning that the sun is a day star. They are finding out why there are spots on the sun and how long the spots remain there.

The boys and girls are working hard on their unit of "Pioneers." They recently enjoyed making a map of the trails of explorers of the west who forged the routes for the settlers.

SIX PERIOD DAY STARTS AT JEFF HIGH NEXT FALL

A six period day is to be inaugurated at Jefferson Union high school next fall, according to plans now being made in the superintendent's office.

Eighty per cent of the high schools of California now operate with a six period schedule, and very few use the eight period plan now used locally.

The principal advantage of the six period day is that each student gets more time in each class. This provides an opportunity for some supervised study under the direction of the teacher of that subject.

With two less periods per day each student will have but one "study hall" as compared to two at the present time. The periods probably will be fifty-six minutes long with four minutes between periods. School probably will open at eight-thirty in the morning and close at three o'clock. Lunch period will continue to be thirty minutes in length and will be "staggered" as they are now.

"We believe the students and parents will recognize the advantages of the six period day and welcome the change," stated Stanford Hannah, district superintendent. "We have talked this plan over with the faculty and with the board," continued Hannah, "and we find both receptive to the idea."

Eight definite courses of study or curricula have been organized, to become effective next term, according to a further announcement. These curricula include—academic, commercial, arts and crafts, music, wood shop, auto mechanics, home making and general.

"Too many students go through high school selecting courses in a hit or miss fashion," stated the district superintendent recently. "A planned four-year course of study will give to each student a sequence of subjects that will better prepare him for life in general and for a vocation."

Students will be given an opportunity this spring to select the courses they wish to take next fall. The program of classes will then be made so as to meet the needs and interests of the students.

"I wish we could get more parents to come in and talk over the plans of their boys and girls," concluded Hannah. "We know they are interested but too few realize how glad we are to have their advice and cooperation."

Vanity Fatal

The Duke de La Rochefoucault, whose celebrated Maxims are exemplifications of the thesis that "vanity is the motive of all human actions," joined the revolt of the "Fronde," in which he lost the greater part of his fortune because his wife was not granted the "tabouret"—the privilege of sitting down in presence of the king and the queen.

Body Paint

Automobile bodies are each flooded, in modern treating methods, with more than 4,000 gallons of solution before they are painted, it is said. This process produces on the metal surface a protective phosphate coating, which prevents corrosion, and makes the paint stick better when applied. First introduced in 1936, when 850,000 bodies were treated, over 2,000,000 are undergoing the treatment this year.

Girl Scouts Entertain P. T. A.

Girl Scout Troop No. 1 presented a program at the Crocker P. T. A. meeting held Tuesday, March 13. The topic was "Citizenship and Safety."

Girl speakers taking part in the citizenship topic were June Prescott, Janet Reynor and Christine Quickert.

The following girls gave a skit entitled "Safety Begins at Home" in the guise of a radio program: Announcer, Alberta Smith; father, Marjorie Kruse; mother, Carleen Leach; daughter, Carley Carle.

Sunday evening, March 18 Eleanor Quickert, Christine Quickert, Carleen Carle and Alberta Smith took collections for the Red Cross at the Daly City theatre.

Formation of the Coast Guard auxiliary, authorized by Congress at the Coast Guard's request in June, 1939, to give operators of 262,000 pleasure-type powerboats professional seamanship training, proved a good investment in the war's early days.

INCREASE IN AIR FREIGHT CREATES AIR CARGO JOBS

United Air Lines calls for more men to keep vital war materiel flying

With the tempo of the war in the Pacific increasing daily, United Air Lines is flying the greatest volume of air cargo in its history.

In this vital war work, cargo handlers at the San Francisco Airport are doing a tremendous job of keeping this war materiel moving to all parts of the nation and war zones, the airline reports.

However, with the air transport job increasing as the war is stepped up, more cargo handlers are needed today at the airport.

In addition to the war cargo there is a great volume of domestic air express, mail and other cargo to be loaded and unloaded from Mainliners landing and taking off every hour at the San Francisco Airport.

Cargo handlers find working conditions at United Air Lines pleasant, and co-workers are friendly and helpful to new employees. Transportation to the San Francisco Airport is convenient—buses stop at the gate of United Air Lines. And the airline recently opened a new and modern cafeteria for its employees. Employee benefits include vacations with pay, insurance, periodic wage review, and a retirement plan.

To help out in this vital war cargo work, men are urgently needed today. Apply at United Air Lines, San Francisco Airport, Bayshore Blvd., at San Bruno Ave., or 421 Powell St., San Francisco.

Previous to the war he was a New York attorney and also served on the Federal Power commission. The public is invited to the lecture.

San Mateo Junior college will have its Easter vacation the last week of March but will close Friday, March 23, for teachers' institute. Class work will resume on April 2.

Get set for tomorrow in a good war job now

A "Helper" job in an S.P. shop is a good war job. It will help you get places. You can learn a high pay trade... working with experienced machinists, boilermakers, plumbers, carpenters, etc. Or you can set your sights on getting ahead with the railroad. (Many top men started in the shops and yards.) In either case, you'll be in a good job now... essential, interesting. Lots of extras, too... hospitalization, medical care, R.R. pass privileges, pension plan. Don't miss this chance at a good job with a friendly, permanent company. At least, come in for details. We'll answer all your questions. No obligation. Many other good jobs open at S.P.

121,075 Partner-Stockholders 85.3% own only 1 to 100 shares each

This Company, serving gas and electricity to more than 1,750,000 customers in 46 of California's 58 counties, is largely owned by average "home folks" of modest incomes. There are 121,075 holders of P. G. and E. stock and of these, 103,000 or 85.3 per cent hold from 1 to 100 shares apiece.

The partner-ownership of P. G. and E. stock is typically Californian. It springs from the desire of small investors to place their savings in a California institution which with its predecessors, has been in business in this state for more than 90 years. It is an expression of their faith in the continued growth of the state and in an industry that aids and adds to prosperity.

29,000 or 24.1 per cent of these small "savings account" holdings are from 1 share to 10 shares for each holder, and 74,106 or 61.2 per cent are from 11 to 100 shares each. Only 640 stockholders own 1,000 shares or more.

Widespread ownership of our stock by "home folks" means much to this Company. It means a common interest between the Company and those we serve. It is YOUR Company, giving you gas and electric service at rates far below the national average.

"For meritorious achievement while participating in sustained bomber operations over German and German occupied countries. The courage, coolness and skill displayed by this officer upon these occasions reflect great credit upon himself and the armed forces of the United States."

Since the award can not be formally presented to Lieutenant Grenier because he is missing in action, the decoration will be presented to his wife at some future date.

He is the son of Mrs. Mary Grenier, 1130 Brunswick street.

Hold Plates

If you use plates for decoration on a shelf, screw a flat curtain rod, groove side up, to the shelf to hold them in place.

Water Makes Milk Richer

Cows with water constantly before them drank 18 per cent more and produced 3.5 per cent more milk and 10.7 more butterfat than did cows watered at an outdoor tank morning and night, the Iowa experiment station found.

Chicken Catcher

Bend into a hook, the end of a No. 9 wire and you have a fine chicken catcher. It will hold them by the legs until you can pick them up.

Egg Whites

Whites and yolks of eggs can be separated more easily when cold, but they will beat up to greater volume if allowed to warm up to room temperature.

Pipe Wrench

A pipe wrench can be made quickly by laying a flat file in the jaw of an ordinary wrench. Most every farmer has some old snag ends of files.

Growing Needs

When the U. S. population reaches an estimated 140 millions in the decade, 1950-60, it is estimated about 360 million acres of land will be needed to provide food and clothing for them.

Cleaning Spots

Be miserly with cleaning fluid or water — barely dampen a wad of cheesecloth, then tamp with unevenly placed strokes to avoid a ring. It's a flecking motion, a feather touch. The idea is to work quickly. Blow on the area to hasten drying. Never rub a spot, because a rubbed area highlights just like a spot even if it isn't. Pat dry with a clean dry cloth. Quick, airy hang-up helps avoid a ring.

Your BABY

By Lillian B. Storms

The commercially prepared baby foods, the precooked baby cereals, canned strained vegetables and fruits and canned evaporated milk are a great convenience. Questions are sometimes asked about the care of these foods in the home. They have been carefully prepared for you and your baby but you have responsibilities in their care in the home.

The precooked baby cereals are very attractive to insects. Placed on a pantry shelf with other cereals, you will find insects will desert less nutritious foods in favor of the higher values in these cereals. They should be stored in a dry place, not too warm. Especially after the package has been opened, it may best be kept in the refrigerator.

Canned evaporated milk, and the canned strained foods will keep almost indefinitely before opening. All canned foods should be stored in a cool, dry place. Most kitchens and cupboards are not ideal so that large supplies for use in the future are not advisable.

Evaporated milk cans usually have two small holes punched in one end. If not used up at once, place a small piece of clean paper over each hole and keep in the refrigerator.

The canned vegetables and fruits are in small cans so as to fit the needs of the average baby after the baby has gotten started. At first only a part of the contents will be used at one meal. As with the canned milk, the can has been sterilized when the food was packed and is a perfectly safe container. It must be covered and refrigerated. If more convenient to transfer to another container, sterilize it before using.

If there is no refrigerator, do not attempt to keep canned milk or the baby foods after the can has been opened. Use for some other member of the family, as in a cream soup.

Canned foods are cooked foods and need the same care and treatment as other cooked foods.

THEIR'S IS THE PROSY SIDE OF AERIAL WARFARE—Despite heavy snowfalls ground crews of the Ninth Air Force kept the fields in operation and planes were ready for their missions as soon as the weather "broke". Here a tractor hauls a fighter into position on the snow-covered runway at a Ninth Air Force base near the Western front. Somewhere, not in the range of the picture, Aviation Engineers are pushing their bulldozers through the drifts and over V-bomb craters to establish other air strips.

Rois Leather

Never wear shoes over bare feet, not even when substituting make-up for stockings. Wear pads or socks to absorb foot perspiration because perspiration has an alkaline effect which is very bad for leather. With leather high on the list of materials needed by the armed forces, civilians must take every possible precaution to keep shoes in good condition. The invisible pads and the socks should be washed after every wearing, particularly when worn with open-toe and open-heel sports shoes. Women should be just as dainty about these brief foot coverings as they are with full length hose.

Farm Schooling

Of farm youth between 16 and 17 years of age, only 56.8 per cent were attending high school in 1940, and it is estimated that 50,000 rural children of elementary age are not enrolled.

How to Make Hot Cross Buns

HOT CROSS BUNS

6 to 6 1/2 cups all-purpose flour
1 tsp. cinnamon
1/2 tsp. nutmeg
1 cup milk
1/4 cup water
1 cake fresh yeast
1/4 cup sugar
1 tsp. salt
1 egg
1/2 cup softened butter or margarine
1 cup seedless raisins
1/2 cup currants

Sift and measure flour and sift again with spices. Heat milk until bubbles form around edge; add water and cool to lukewarm. Add crumbled yeast, sugar and salt, stirring until yeast is dissolved; add beaten egg, then flour mixture all at once. Add butter or margarine, raisins and currants and work until dough leaves side of bowl. Turn out on lightly floured board, knead gently until smooth, about 3 minutes. Place dough in greased bowl, cover with damp cloth. Let rise in warm place until double in bulk, about 2 hours. Remove from bowl onto lightly floured board. Shape into ball; place on floured board; divide into four portions; shape each into ball; cover with damp cloth; and let stand 15 minutes. Divide each ball into 8 small ones; place on greased baking sheet 2 inches apart; cover; let rise until almost double in bulk. Brush with egg wash (1 egg yolk beaten with 3 tablespoons water); cut shallow crosses with scissors on top of each roll. Bake 5 minutes in moderately hot oven (425° F.); reduce to moderate oven (350° F.); and bake 15 to 20 minutes longer, or until done. When almost cold, mark crosses with thin icing made of powdered sugar and just enough cream to spread easily. Makes 32 buns.

Part For Victory?

*He comes to
speak for
G.I. JOE*

OPEN your heart to him, when he comes. He speaks for wounded men lying in hospitals; for American boys stagnating in prison camps; for lonely men who have not seen home in years.

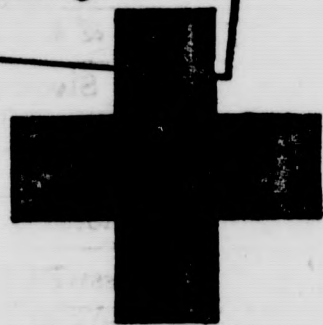

Through him, you'll hear the thanksgiving of these men in whom the bright flame of reason, faith, and hope might have died . . . if your Red Cross had not been beside them.

You'll hear the bright "Hi!" . . . the shy "Thanks!" . . . from many a far-flung island. And you'll know your Red Cross must keep on . . . keep serving, keep doing . . . till the world is "right," once again.

So you'll give more this year . . . you'll know the need is greater than ever.

And you'll greet with a smile the faithful neighbor who comes to your door! For this volunteer not only comes to speak for "The Boys." He comes to save you time and footsteps. He's saving you a trip to the Red Cross headquarters to make your contribution for your boy.

One Pound of Haddock!

By Frances Lee Barton

WHAT can you do with a pound of haddock when one or two guests drop in unexpectedly?

"Not much," you say! Don't be too sure. Haddock blends with vegetables, eggs, corn flakes and seasonings so that you can serve one of the most delicious fish dishes imaginable. Here's the recipe:

Baked Haddock with Dressing
1 pound fillet of haddock; juice of ½ lemon; salt and pepper; 2 cups coarsely crushed corn flakes; ¼ cup chopped onion; ½ cup chopped celery; 2 tablespoons chopped parsley; 1 egg, well beaten; 3 tablespoons melted butter or margarine; 2 to 4 tablespoons boiling water.

Arrange fish in greased shallow baking dish. Sprinkle with lemon juice, salt, and pepper. Combine corn flakes with remaining ingredients, adding just enough boiling water for dressing to hold together. Spread over fish and sprinkle with paprika. Bake in moderate oven (375° F.) 35 minutes, or until done. Remove to hot platter. Garnish with lemon and parsley. Makes 6 servings.

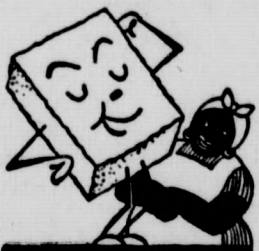

Home Hazards

Watch for "home hazards." Keep stairways free of toys, mops and tools and be sure the stair rug is nailed down so there are no loose edges to trip over.

An Old Favorite

By Frances Lee Barton

I don't know where it got the name. There is no "Johnny" in it.

But it has been a favorite treat since days of wig and spinet. It makes one think of Southern cooks' Perchance of Northern miners.

Of Pilgrim Mother's luscious mea's; Of Western Forty-Niners. It's "universal" Johnny cake. A dainty dish undying. So here's the recipe for you—It's certainly worth trying.

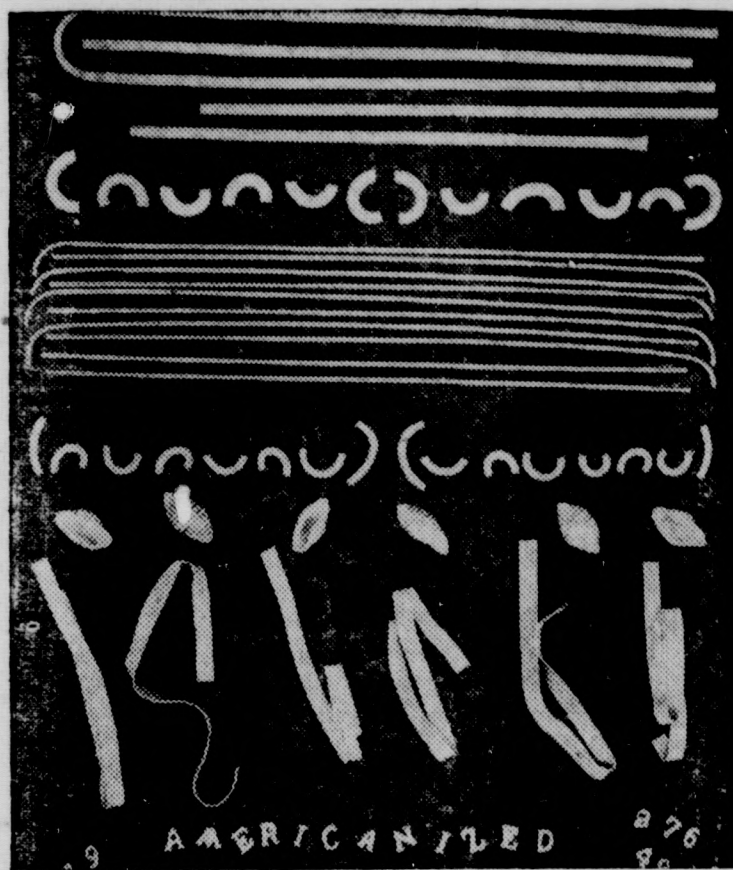

Johnny Cake

1 cup sifted flour; 2 teaspoons double-acting baking powder; 1 teaspoon salt; 1 cup yellow corn meal; ¼ to ½ cup sugar; 2 eggs, well beaten; ¼ cup milk; 4 tablespoons melted shortening.

Sift flour once, measure, add baking powder, salt, corn meal, and sugar. Combine eggs, milk, and shortening. Add to flour mixture, stirring only enough to dampen all flour. Turn into greased pan, 9x9x2 inches, and bake in hot oven (400° F.) 30 minutes, or until done.

Use Leftovers

Left-overs may be utilized in casserole dishes, vegetable soup, meat pies, stews, potato and rice cakes, rice pudding and Spanish rice, bread pudding, dressing, salads, fruit cocktail, chili, mush and the usual hash.

By BETTY BARCLAY

No! This isn't Sanskrit, Arabic or Turkish. It's not even shorthand or Braille. It's a family of one of our Basic 7 foods—a many-shaped family, strutting its stuff. Reading from top to bottom, the shapes shown are called macaroni, macaroni elbows, spaghetti, spaghetti elbows, shells, egg noodles and alphabets and numerals. Quite simple, when explained, isn't it?

We need each day, foods from each of seven groups—called The Basic Seven Foods. Macaroni and its various food cousins featured in the illustration are group-6 foods—energy foods. But they blend excellently with foods in most of the other groups, so that a macaroni main-course dish may well take care of the bulk of the food requirements for that meal. Macaroni blends with cheese, meats, apples, tomatoes, milk, butter, fish and eggs—so you see how important a food it is. With spaghetti and egg noodles, it forms the famous "Energy Trio" that fits so nicely into all-season menus.

So don't read the above. Eat it. The recipes below are for some particularly healthful and delicious dishes, that will start you off on a new energy diet and are especially adapted for serving during the Lenten Season when many prefer non-meat dishes.

Macaroni-Egg Delight

½ lb. elbow macaroni
½ cup grated cheese
6 eggs
1 can tomatoes

Salt, pepper and butter to taste
Cook macaroni in boiling salted water until tender; drain.

In a shallow baking dish cook tomatoes, seasoned with salt and pepper for 10 to 12 minutes. Add drained macaroni, mix well.

Drop 6 carefully broken eggs in your favorite pattern on top of the mixture. Season each egg with pepper and salt and sprinkle over all the grated cheese, with dots of butter here and there.

Bake at 275 degrees F. until egg whites are set. 4 to 6 servings.

French-fried Macaroni with Cheese
1 pound macaroni, long or elbow
2 tablespoons butter or other shortening
½ cup grated cheese

Pepper and salt to taste
Boil macaroni in rapidly boiling salted water; drain.

In a heavy frying pan, melt shortening. Add a little olive oil if you like that flavor. (It will keep butter from "burning", if butter is used).

Add the drained, boiled macaroni and stir it often to slightly brown a substantial portion of the macaroni. Fry none of it hard. Sprinkle with grated cheese; serve hot.

Oriental

WILLOWY GRACE of the Chinese-inspired dress modeled by CBS singing star Patrice ("Family Hour") Munsel introduces a new fashion trend in sportswear. Fine outline of striped cotton accents the slender lines of the side-wrapping sea green wool and rayon sheath. Imaginatively accessorized with a bare arm bag, dainty hair ornaments and non-rationed, Cathay playshoes, the costume calls for attention with its restrained beauty. (From Lord & Taylor, N.Y.)

Singing Russians
When units of the Russian armies are marching, at the head of each company with the company commander, are the best singers of the unit. They sing a stanza of the song, then the company takes up the chorus in harmony. It makes a deep impression upon spectators and at the same time, gives the soldier in ranks the sense of being part of a roaring power that marches on and on. It makes civilians march in step with the unit, take up the song and sing with the soldiers. This in turn creates in both a strong feeling of unity. Singing lessons are compulsory in the Red army.

Nuts for Fats
Since pecans are over 70 per cent fat it is often possible to substitute nuts for part of the fat in a recipe. For example, in making pie crust, finely ground pecans may be used for half the fat called for in the pastry recipe. The ground pecans are added to the fat, and the pastry mixed and baked in the usual way. This nut pastry is especially delicious with cream or custard filling.

Head the list with HEALTH!

IN any record of national assets, we're bound to put health right up at the top. Our other riches are of no account unless we have the health, the strength and the energy to defend them. In momentous times like these, no individual has a right to neglect health. The nation needs the full measure of your energy and effort. The moral can be put in four little words: *Get well—KEEP well!* See your physician and then come here to have his prescriptions precisely compounded.

Marsh Mosquitoes

Salt-marsh varieties of mosquitoes, of types known to be malaria carriers, have been found in large numbers as far inland as sections of Indiana, Illinois, Arkansas, Oklahoma and New Mexico, according to a report by Herman L. Fellton, U. S. public health service. He points out that salt water for their breeding was provided by discharge from oil wells in most cases.

Economical Preparation

To prepare foods with little waste, housewives should cook potatoes in their jackets, cook meats at a low temperature, serve vegetables and fruits raw if possible, boil potatoes before frying and cook vegetables under lids and in small amounts of water.

Air Valves

Don't neglect to have worn out or obsolete air valves replaced on radiators of steam heating plants. Poor air valves are one of the most common causes of complaints about poor heating. It is a complaint that can be avoided if air valves are checked by a heating contractor once a year.

Frosted Evaporator

Sharp objects should not be used to loosen the frost and ice from the evaporator in trying to defrost the refrigerator quickly, as the coils may be punctured. Let the ice melt and fall.
